- BrushSync automatically selects the best mode for you

Stay on track with a personalized progress report

- Sonicare app for coaching and progress reports

Stylish, user-friendly design

- Stylish design for a premium brushing experience

Highlights

Whiter teeth in just 3 days*

Boost your smile's brightness with advanced Sonicare technology. Polishing bristles remove up to 100% more stain than a manual toothbrush for visibly whiter teeth in just 3 days*.

Gentle on your gums

The C3 Premium Plaque Control brush head is designed to give you your deepest clean yet. Soft, flexible sides and bristles perfectly curve around the contours of your teeth, giving you 4x more surface contact and helping target hard-to-reach spots***

Premium brushing experience

Our DiamondClean 9000 comes with a standout ombr design for a premium, ergonomic brushing experience that suits your style. Slim, compact travel case in a complementary color goes anywhere life takes you.

Advanced Sonicare technology

Powerful sonic vibrations move 62,000 times every minute to drive plaque-fighting bubbles between your teeth and along your gum line. Removes up to 10x more plaque than a manual toothbrush.

4 modes / 3 intensities

Choose from 4 brushing modes: Clean for exceptional everyday cleaning, White+ to brighten your smile, Gum Health for a gentle yet effective clean, and Deep Clean+ for an invigorating deep clean. Three intensity settings from Low to High let you boost performance or care for sensitive gums.

Built-in pressure sensor

You might not notice if you're brushing too hard, but your DiamondClean 9000 will. If you need to ease up, the toothbrush will make a pulsing sound. It's a heads up to let your brush head do the work.

BrushSync automatic pairing

Smart brush heads ensure you're using the right mode and intensity for the best possible clean. When you are using the C3 Premium Plaque Control brush head, your DiamondClean 9000's BrushSync technology will automatically sync your brush head with the Clean mode to help whiten your teeth.

Sonicare app

The DiamondClean 9000 gives you the guidance you need to improve and maintain healthy brushing habits in between dentist checkups. Built-in smart sensors let you know when you're using too much pressure, and by connecting your brushing experience to the Sonicare app, a personalized Progress Report helps you stay on track, to see how much you've improved over time.
