CLEANING WITH CARPETXPERT

DEEP CLEANING with the brushroll:

1. Gently step on the base and tilt the handle back.
2. Press power button; unit will enter Deep Clean Mode.
3. Move unit forward; it will automatically dispense water and formula.
4. Move back to dry with suction only (does not dispense fluid on back stroke).
5. Repeat steps 3 and 4 on the same area once.

Rinsing: Some users may want to rinse their carpet after cleaning. To do this, fill CarpetXpert Tank with only water, and repeat cleaning steps.

QUICK DRY MODE

Avoid over-cleaning the same spot in Deep Clean Mode to prevent saturated carpets and long dry times. Drying may take a few hours.

Once deep clean is complete, press the Mode button to activate Quick Dry Mode. Repeated passes in Quick Dry Mode will reduce dry time.
